### REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance:
2. The Amendment submitted on May 27, 2008, has been entered. Claims 1 - 25, 27, 34, 35, 44, 45, 51, and 52 have been cancelled. Claims 26, 39, 46, and 48 have been amended. Therefore, the pending claims are 26, 28 - 33, 36 - 43, 46 - 50, and 53 - 55.
3. The amendment is sufficient to overcome the 35 USC 103 rejection over Huber et al. (5,066,529) and Hamilton (5,010,589) since Huber et al. and Hamilton fail to teach applying a coating containing an active material selected from the group consisting of wax, grease, varnish, silicone, silica gel, a vapor phase corrosion inhibitor, and a volatile corrosion inhibitor.
4. The prior art fails to teach or suggest adding an active agent selected from the group consisting of wax, grease, varnish, silicone, silica gel, a vapor phase corrosion inhibitor, and a volatile corrosion inhibitor to a self-adherent wrap, i.e., a wrap which does not adhere to the skin or object to which it is applied, and does not require the use of fasteners (specification, page 6, lines 5 - 10). While the prior art teaches that self-adherent wraps are used in medical applications, there is no suggestion to apply the claimed active agents to a medical wrap. Further, while Huber et al. discloses that self-adherent wraps can be used to wrap around objects to provide camouflage, there is no suggestion in the art to apply any of the claimed active agents to a camouflaged fabric which is self-adherent. The prior art suggests using silica, varnish, or wax in coatings which are either adhesive in nature or other heavy coatings layers which would interfere with the self-adherent nature of the fabric by preventing the fabric from sticking to itself. Thus, claims 26, 28 - 33, and 36 - 38 are allowed.
5. Claims 26, 28 - 33, and 36 - 38 are directed to an allowable product. Pursuant to the procedures set forth in MPEP § 821.04(B), claims 39 - 43, 46 - 50, and 53 - 55, directed to the process of making or using an allowable product, previously withdrawn from consideration as a result of a restriction requirement, are hereby rejoined and fully examined for patentability under 37 CFR 1.104.

Art Unit: 1794

Because all claims previously withdrawn from consideration under 37 CFR 1.142 have been rejoined or cancelled, **the restriction requirement as set forth in the Office action mailed on December 11, 2007 is hereby withdrawn.** In view of the withdrawal of the restriction requirement as to the rejoined inventions, applicant(s) are advised that if any claim presented in a continuation or divisional application is anticipated by, or includes all the limitations of, a claim that is allowable in the present application, such claim may be subject to provisional statutory and/or nonstatutory double patenting rejections over the claims of the instant application. Once the restriction requirement is withdrawn, the provisions of 35 U.S.C. 121 are no longer applicable. See *In re Ziegler*, 443 F.2d 1211, 1215, 170 USPQ 129, 131-32 (CCPA 1971). See also MPEP § 804.01.

6. Claims 39 - 43, 46 - 50, and 53 - 55 are allowed since they contain the allowable subject matter as set forth above.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Jenna-Leigh Johnson whose telephone number is (571) 272-1472. The examiner can normally be reached on Monday - Friday (8:00 - 5:30).

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Rena Dye can be reached on (571) 272-3186. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
